Operating Room

SNOW PAC

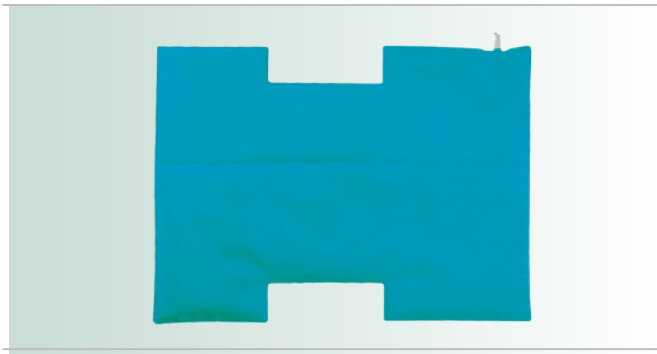
FOR SURGERY POSITIONING PATIENTS

Snow Pac provides more stable and comfortable positioning for patient, saves valuable time for the entire O.R. team in every case.

It prevents pressure points.
aids to achieve comfortable position.

It aids faster, easier set-up.
aids better surgery position presentation.

PRINCIPLE OF SYSTEM

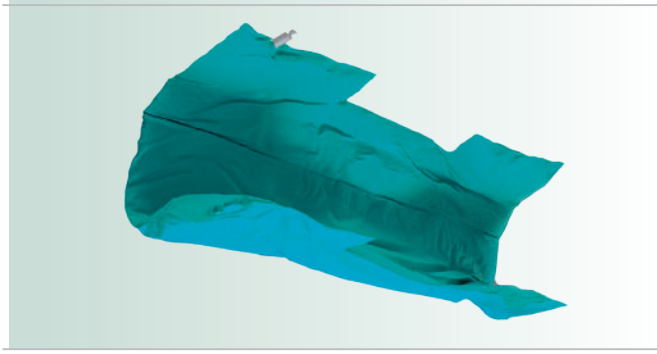


Before

Snow-Pacs are soft pads (available in various sizes and shapes) that are filled with thousands of tiny plastic beads.

The Snow-Pac is molded around the patient and then a suction line is attached to it.

As a vacuum is created inside the Snow-Pac within 15 seconds, outside atmospheric pressure forces the beads together so they cannot move.



After

When the suction line is disconnected, the Snow-Pac retains its firm, molded shape and holds the patient securely in position.

After surgery, the valve is opened, and as air reenters into the Snow-Pac it becomes soft again, ready for reuse.

EFFECT

More Stable
Because Snow Pacs are molded completely and firmly to shape of the patient's body and more securely than sandbags, towel rolls and other devices that are merely propped against the patient.

More Comfortable
The apparent wrinkles are inverted-drawn inward by suction and will not irritate the skin.

Better Presentation
With Snow Pacs the patient can be positioned exactly as thesurgeon desires for the best presentation of the operative site. Snow Pacs conform to any shape, so the patient's position does not have to be compromised.

More Versatile
With Snow Pacs patient can often be placed in positions that could not be easily achieved using other positioning devices.

No Pressure Points
A Snow-Pac supports all parts of the patient's body uniformly, like a floatation mattress Weight is distributed evenly, instead of being supported only by the bony prominences, which Leads to pressure point injuries.

Saves Time
Patients can be positioned much more quickly and easily using Snow Pacs, and if necessary, be repositioned during a case.

OTHER FEATURES

Any Vacuum Source
Use wall suction, aspirator pump or any other convenient O.R. vacuum source.

Reusable
Snow Pacs give years of O.R. service. Rubberized vinyl fabric is soft but durable.

Radiolucent
Excellent radio transparency with only minimal and clearly identifiable artifacts.

Clean, Disinfect, Sterilize
Can be cleaned with regular soaps and liquid disinfectants or sterilized by gas.

Saves Money
Snow Pacs save the cost of sandbags, towel rolls and other positioning devices, and they save time in every case.

Repair Service
Factory inspection and repair service is available at nominal cost after warranty period.
Full One Year Warranty.

INDICATION

KIDNEY POSITION, LATERAL POSITION

Easily up in nephrectomy (A type), and also for handicapped person with cerebral palsy.(A-1 type).

A type

A-1 type
A-1-1 type

A-1-2 type
A-1-3 type

A type	73(L) * 100(W)cm
A-1 type	73(L) * 100(W)cm
A-1-1 type	90(L) * 100(W)cm
A-1-2 type	73(L) * 100(W)cm(U)
A-1-3 type	90(L) * 100(W)cm(U)

THYROID POSITION

Provides hyperextension, prevents postoperative discomfort.

B type
B-1 type

B type	72(L) * 88(W)cm
B-1 type	118(L) * 88(W)cm

HEAD STABILIZATION POSITION

Stabilizes head in eye, facial or dental surgery.

C type

C type	30(L) * 40(W)cm

SUPINE POSITION

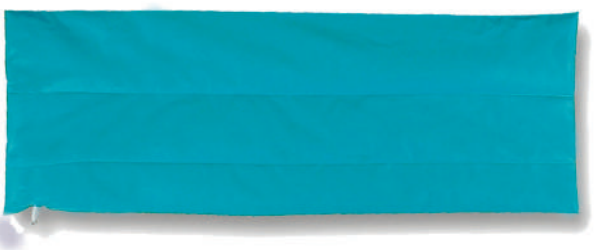
Supports and eliminates back pains during long procedures.

Prevents foot drop splint in Emergency.

D type

D type	30(L) * 55(W)cm

VARIOUS FULL BODY POSITION



E type

E type	165(L) * 72(W)cm

CASES

NEEDLE COUNTER & SHARPS COLLECTOR

MICRO INSTRUMENT TWO FLOOR CASE

SK-19-5 (2F)

For microsurgical and other delicate instruments, for maximum protection and flexible handling, made of resilient polymer.

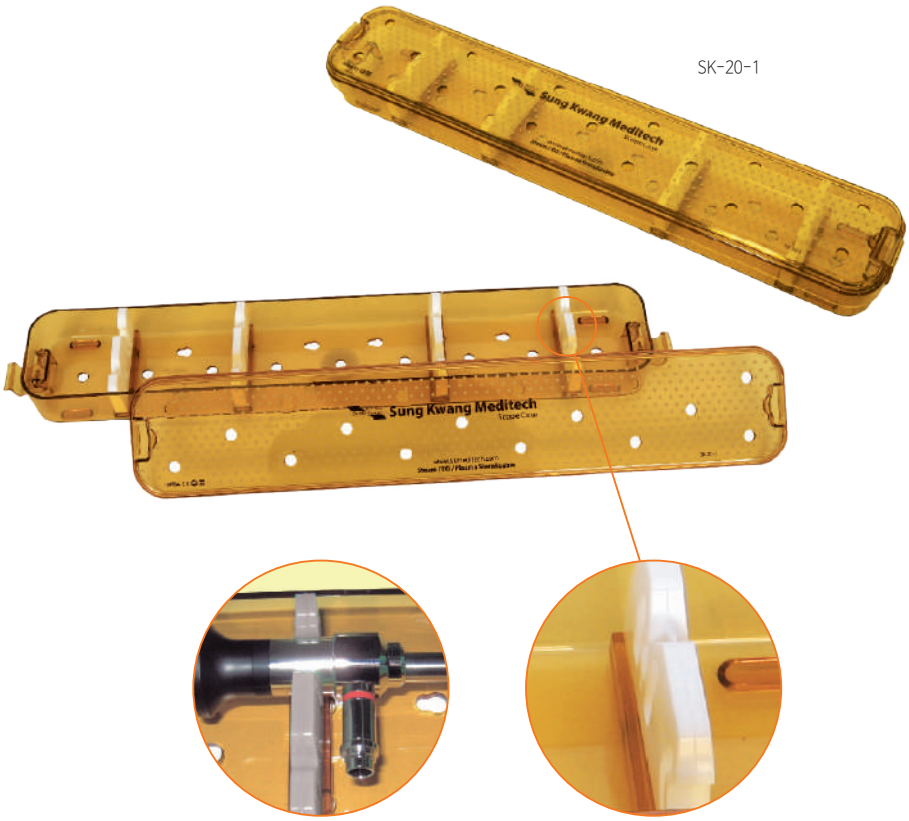
Protruded silicon embomat is placed on the bottom prevents instrument to move freely.

Cases are designed to withstand repeated exposure to 134℃ steam temperature.

Steam / EO / Plasma Sterilizable

	(External)
SK-19-5(2F)	39(L) * 27(W) * 4(H)cm

LAPAROSCOPE CASE



SK-20-1

For Laparoscope.

Silicon bar is placed to prevent laparoscope to move freely.

Cases are designed to withstand repeated exposure to 134℃ steam temperature.

Steam / EO / Plasma Sterilizable

	(External)
SK-20-1	48(L) * 9(W) * 5(H)cm

TELESCOPE CASE

SK-20-2

For Telescope.

For Arthroscope Silicon bar is placed to prevent laparoscope to move freely.

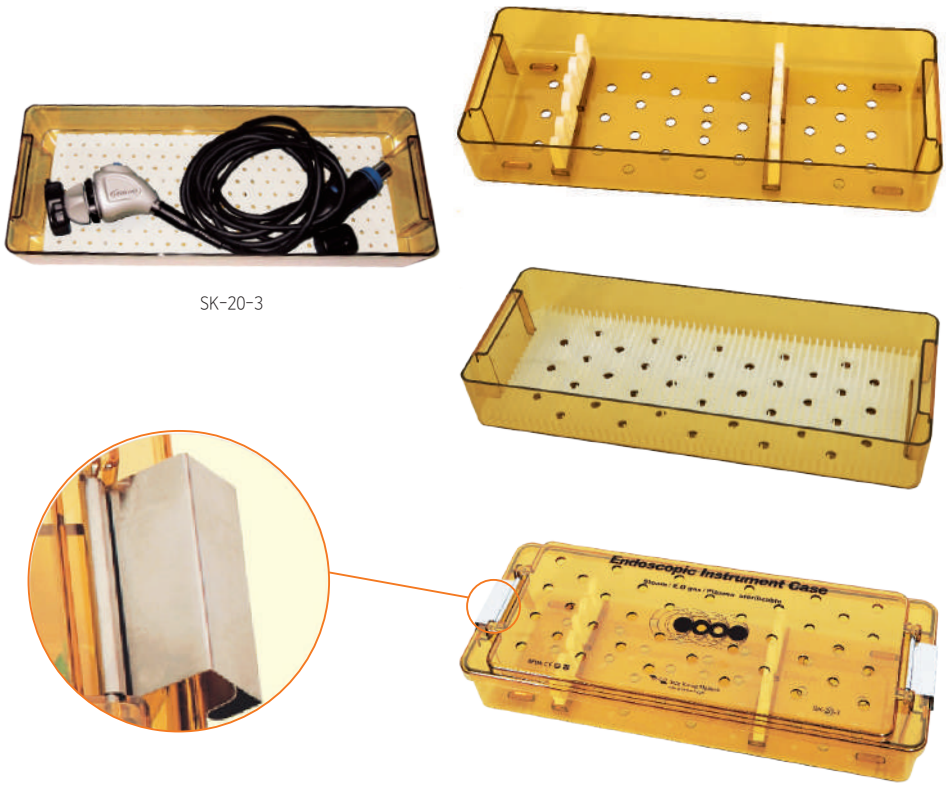
Cases are designed to withstand repeated exposure to 134℃ steam temperature.

Steam / EO / Plasma Sterilizable

	(External)
SK-20-2	28(L) * 7(W) * 5(H)cm

Operating Room

ENDOSCOPE INSTRUMENT CASE



SK-20-3

For Endoscope Instrument.

Silicon bar is placed to prevent laparoscopic instrument to move freely.

Cases are designed to with stand repeated exposure to 134℃ steam temperature.

SK-20-3 is used for endoscope camera case.

Steam / EO / Plasma Sterilizable

	(External)
SK-20-3	37(L) * 15(W) * 7(H)cm

LAPAROSCOPIC INSTRUMENT CASE

SK-20-4

Silicon bar is placed to prevent laparoscopic instrument to move freely.

Cases are designed to withstand repeated exposure to 134℃ steam temperature.

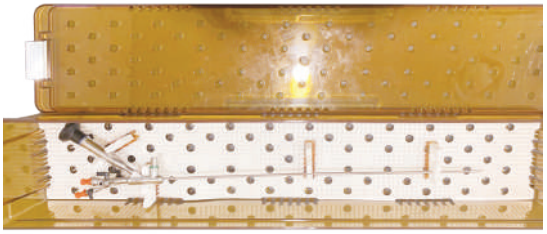
Steam / EO / Plasma Sterilizable

It contains 2pcs or more of laparoscopic instrument.

	(External)
SK-20-4	60(L) * 20(W) * 6(H)cm

LONG SCOPE INSTRUMENT CASE

SK-20-5



Sterilization cases used during laparoscopic long scope and robotic instrument surgery.

Silicon bar or mat is placed to prevent movement of instruments used in obstetrics, urology, otorhinolaryngology, surgery and robotic surgery.

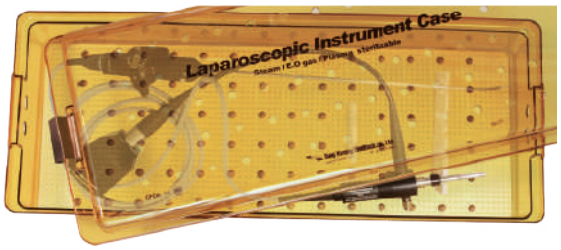
Two or more laparoscopic instruments can be inserted.

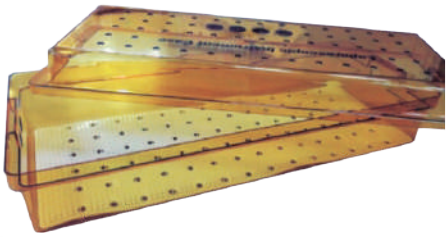
Cases are designed to withstand repeated exposure to 134℃ steam temperature.

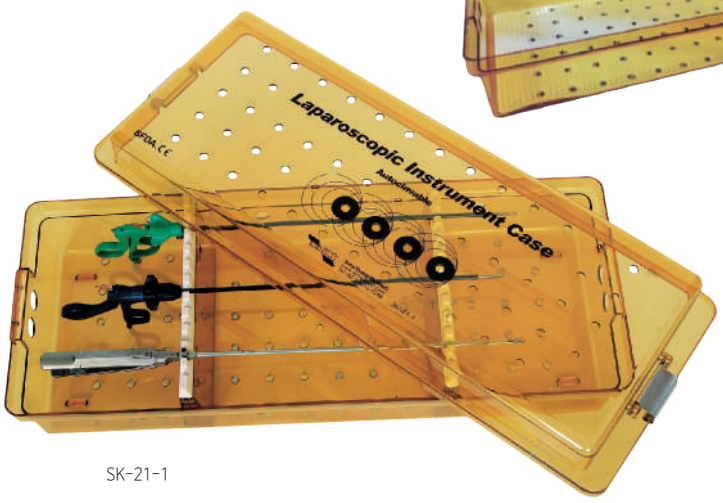
Steam / EO / Plasma Sterilizable

	(External)
SK-20-5	72(L) * 15(W) * 10(H)cm

LAPAROSCOPIC INSTRUMENT CASE







SK-21-1

Silicon bar is placed to prevent laparoscopic instrument to move freely.

Cases are designed to withstand repeated exposure to 134℃ steam temperature.

Steam / EO / Plasma Sterilizable

It contains 10pcs of laparoscopic instrument.

	(External)
SK-21-1	64(L) * 25(W) * 15.5(H)cm

GEL PRODUCTS

Capillary closure is at the root of ulcer formation.
The blockage or damage of capillaries prevents the natural maintenance of healthy skin.
In operation, the use of proper positioning devices prevent excessive pressure build-up and capillary closure.
Evenly distribute weight and provide constant support beneath patients.
Gel products are cost effective, latex free, fast & easy cleaning, radiolucent tissue equivalent.

SK-22-4(Baby)	9.2(D) * 2.4(H)cm

C-DOUGHNUT GEL HEAD PAD

SK-22-1

SK-22-1-1

SK-22-1-2

C-doughnut gel head pad provides clear air passage way when the patient is positioned for surgery by lateral or prone position.

SK-22-1(Adult)	21(D) * 4.5(H)cm
SK-22-1-1(Child)	15(D) * 3.5(H)cm
SK-22-1-2(Baby)	9.2(D) * 2.4(H)cm

GEL OPHTHALMIC HEADREST

SK-22-a

SK-22-b

It was designed for stable head placement for all ophthalmic and oral or facial procedures.

Also provides patient with comfort while under local anesthesia, minimizing patient movement.

It was also designed for surgeon's functional arm support.

SK-22-a(Adult)	31(L) * 27(W) * 10(H)cm
SK-22-b(Child)	31(L) * 25(W) * 7.3(H)cm

GEL OPHTHALMIC CRADLE HEADREST

SK-22-c SK-22-d

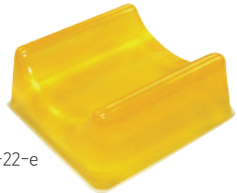
It was designed for ENT, plastic surgery ,all ophthalmic cases.

It helps prevent risk of alopecia especially during long surgery.

Cradling of patient s head provides stability.

SK-22-c(Adult)	23(L) * 23(W) * 5.7(H)cm
SK-22-d(Child)	19(L) * 21.6(W) * 3.8(H)cm

GEL HEAD PAD



SK-22-e

SK-22-5

It provides optimum stability of patient s head while in the supine position.

Can also be used for position and protect the knee or calf.

SK-22-e(Adult)	18(L) * 18(W) * 8(H)cm
SK-22-5(Baby)	16(L) * 12(W) * 1(H)cm

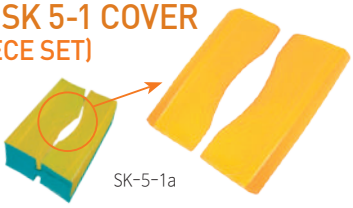
	21(L) * 6(W) * 1(H)cm

GEL WILSON FRAME COVER (2 PIECE SET)

SK-17-1

GEL SK 5-1 COVER (2 PIECE SET)



SK-5-1a

It provides comfort and distributes pressure in prone position spine surgery.

SK-17-1	75(L) * 24.5(W) * 1.3(H)cm
SK-5-1a	52(L) * 31(W) * 1.3(H)cm

GEL RELTON FRAME PAD (4 PIECE SET)

SK-17-1-1

It provides comfort and safety in prone position spine surgery.

SK-17-1-1	1.3(thick)cm

Operating Room

GEL FOREARM PROTECTOR

SK-17-2

It is used for nerve protection of arm and elbow in supine position surgery.

SK-17-2 Gel forearm protector(L)	46(L) * 21(W) * 0.8(H)cm
SK-17-2-1 Gel forearm protector(S)	38(L) * 11.5(W) * 0.8(H)cm

GEL BODY BELT

SK-17-3

It helps safety, stability and tissue protection during surgery.

SK-17-3	50(L) * 8.5(W) * 0.8(H)cm

GEL SHOULDER PROTECTOR

SK-17-3-1

It is designed for patient in trendelenburg down position to protect shoulder areas.

SK-17-3-1	16(L) * 15(W) * 2(H)cm

GEL ALLEN PAD

SK-17-4-1

It is used lithotomy position for nerve protection.

SK-17-4-1	68(L) * 38(W) * 1(H)cm

GEL ANKLE HOLDER (2 PIECE SET)

SK-17-5

It is used in lithotomy position for nerve protection.

SK-17-5	40(L) * 3(W) * 1(H)cm

GEL SNOW PAC A-1 type COVER

SK-17-6

Designed for A-1 type snow pac.
It provides comfort.

SK-17-6	100(L) * 73(W) * 1(H)cm

GEL SNOW PAC B type COVER

SK-17-6-1

Designed for B type snow pac.

SK-17-6-1	88(L) * 72(W) * 1(H)cm

GEL SNOW PAC C type COVER

SK-17-6-2

Designed for℃ type snow pac.

SK-17-6-2	30(L) * 40(W) * 1(H)cm

GEL WHEELCHAIR CUSHION PAD WITH COVER

It was made with a high-quality polyurethane gel and PU foam.
It provides excellent pressure relief.
The gel material will not migrate, leak, evaporate, harden or dry out if the cushion is accidentally punctured.
The material is highly resistant to bacteria and bodily fluids, and can be easily cleaned with warm soapy water or a disinfectant.
It offers excellent pressure reduction and pain relief combination for people with low to moderate risk of skin breakdown.

It provides excellent immersion stability and pressure distribution.

It provides great comfort and excellent positioning stability.The gel material also helps dissipate heat buildup.

4" cushion provides long-term positioning support and excellent comfort.
It is applied for individuals with a history of skin breakdown or those who suffer from pressure sores.

99 ALUMILITE

99AL

Manufactured of lightweight nylon, the 99 Ultralite was designed to be comfortable and provide protection for the entire eye area without the need of an added side shield for lateral exposure.

The curved front and temples with rubber tips assures a close secure fit that also provides some splash protection.

An adjustable snap tip cord is standard with each model.

- Weight : 70 gram
- Lead Equiv Front : 0.75mm (+/-0.05) Lead glass
- Frame Material : Durable Nylon
- Available In : Plano (non-prescription), single Rx (low power), Bifocal Rx (low power)
- AVAILABLE COLORS : Silver.

ALUMILITE	99AL

70S ASTRO FLEX with SIDE SHIELDS

70s

A panoramic goggle constructed of impact resistant propionate.

The frame front has molded side shielding and is fitted to the brow for increased splash protection.

The temple length and frame angle are adjustable for a uniform custom fit.

Model 70S comes with Lead side shields for necessary protection from oblique angle exposure.

- Weight : 80 grams
- Lead Equiv Front : 0.75mm (+/-0.05) Lead glass
- Lead Equiv Side Shields : 0.50mm Lead sheet
- Frame Material : Propionate
- Color : Clear/Blue
- Available In : Plano (non-prescription), Single Rx, Bifocal Rx, Trifocal Rx, and Progressive.

ASTRO FLEX	70s

RE FITGUARD

Cocoon's Flexfit fitover is a versatile, high quality nylon frame. Featuring Flexfit technology, the fitover's temples can be benched (adjusted) easily for a secure, comfortable fit.

The large sized model is ideal for fitting over standard sized prescription eyewear with square or rounded lenses.

Blacked out side shields provide a streamlined look as well as 0.50mm lead equivalent protection.

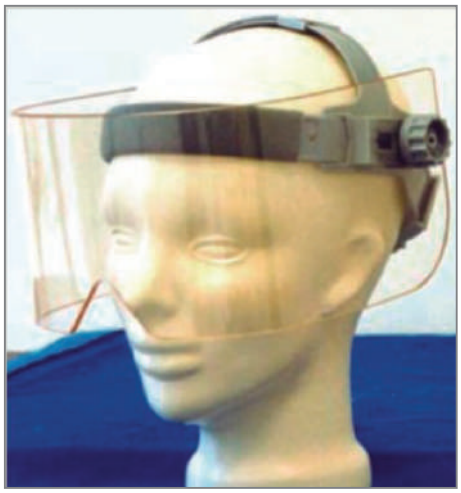
Lead Masks

PANORAMA SHIELD



400PSM

The 400PSM Panorama Shield consists of a Face Formed Radiation Protective Lead Impregnated Acrylic Shield that is suspended from a dual adjustable headpiece.

The acrylic shield can be positioned at any angle to the face so as to minimize scatter radiation from passing under the shield by side adjustable dials. The headgear is adjustable in two positions.

An adjustable headband that saddles the crown of the head while connecting at a 90 angle to an adjustable headband that surrounds the head circumference from brow to back. The circumference portion of the headband has an adjustable dial in the rear to increase or decrease the hat size for a comfortable, snug fit.

Wipe clean with a soft cloth. Abrasive materials may scratch front lens.

Cannot be sterilized with high temperatures or high pressure.

- ◆ Weight : 350 grams
- ◆ Protection : .10mm Lead Acrylic ◆ Material : Acrylic/Nylon

PANORAMA SHIELD	400PSM

PANORAMA MASK

450FPM

The 450FPM Panorama Mask consists of a Face Formed Radiation Protective Lead Impregnated Acrylic Shield that is suspended from an adjustable headpiece.

The stationary acrylic shield extends from a headpiece brow connector for a length of 8 inches from top to bottom in front of the entire face. A support strap saddles the crown of the head while connecting at a 90 angle to an adjustable headband that surrounds the head circumference from brow to back.

The circumference portion of the headband has an adjustable strap in the rear to increase or decrease the hat size for a comfortable, snug fit. W ipe clean with a soft cloth.

Abrasive materials may scratch front lens. Cannot be sterilized with high temperatures or high pressure.
